PERSONAL STATEMENT

I am currently studying Computer Science at university. Prior to this, I completed my A Levels at sixth form, where I took on several leadership roles, including Peer Mentor, Librarian, and Prefect. As a Peer Mentor, I provided guidance and support to younger students, helping them navigate school life and resolve any issues they faced. As a Librarian, I was responsible for checking books in and out, assisting students with locating both physical and digital resources, and managing book reservations when items were unavailable. In my role as a Prefect, I helped orient new students, assisted with administrative tasks such as escorting students from class, and ensured the corridors were orderly during and after breaks.

Outside of academics, I enjoy kayaking and paddleboarding, activities that have helped me develop strong teamwork and collaboration skills. I am an effective communicator, which makes me a positive and engaging team player.
